Roberta Verteramo
Rhizoma table
In patinated bronze and resin

Limited edition of 12

H: 62 cm Surface: 49.5 x 40 cm

Italy, contemporary

'Rhizoma' is not just a table; it's an inverted sculpture. Semi-transparent, the resin allows the raw bronze base to glint though from below, a primordial force. Rhizoma means root, and here touch and vision are confronted with contrasting textures and surfaces that evoke the subterranean power of the natural world.
