Roberta Verteramo

Selene mirror

With an organic border in bronze and clear or 'antique' mirror

Diameter: 60, 100 or 120 cm

Limited edition of 25 of each size

Italy, contemporary

The 'Selene' mirror is both a place of observation and a starting point for new visions. The perforated bronze that surrounds the mirrored surface evokes the erosive action of the sea, which is, of course, influenced by one of the most enduring symbols of mystery we share: the moon.
