In patinated and satin brass

UK, 2022

Width: 60 cm Height: 65 cm Depth: 18 cm

Inspired by the beautiful textures of nature, a mixed patina is applied on a hand-spun brass plate to create this unique finish. Each piece is individually handmade, therefore unique in its own way.

Softly illuminated with intergrated LED from within, this sculptural wall piece sits elegantly in both contemporary and vintage-inspired interiors.
